Patrick O'Connor's new book, "The Framing of Mumia Abu-Jamal" is based on a meticulous review of 12,000 pages of court transcripts, legal briefs, police records and an exhaustive examination of the constitutional violations perpetrated by America's criminal 'justice' system. His evidence makes a powerful case that Mumia Abu-Jamal should be granted a new trial, and having been cruelly kept on death row for 26 years, he should be immediately freed.
